

Ted Warnock, Missionary for Special Projects – UMCOR, Book Shelf building at Albert St Methodist Refugee School

This Saturday (2 August 2008), Berry Mey, his son Matthew, & I constructed two book shelves to be used at the Albert St. Methodist Refugee School. While the planning, measuring and cutting, sanding, and pre-drilling of holes took place before we arrived at the school, the putting them together and sealing the wood took place at the school.

Alfa Zhou (the Principal and his son Anesu) along with teachers William Kandowne and Raphel Maisiri joined us to make this project one of joint cooperation. Once the construction was complete, Raphel and Anesu sealed the wood. Then the shelved were placed along the side wall of the classroom. NOTE the pictures below:
